

Engineer I - Tech Stack

Job Description

As an Engineer I – Tech Stack, you'll complete small, somewhat ambiguously defined features and fix defects. This includes technical upgrades and updating libraries as needed. You'll triage simple issues independently and complex issues with assistance, in both production and locally. While independent work is expected, you'll request assistance when needed to move forward. You'll anticipate customers' needs and identify changes for the product from a reliability, performance and availability perspective with a data-driven approach.

What you'll do

- Create and improve internal libraries and tools
- Deliver small code features, system components or platforms
- Ensure quality delivery of features and systems
- Partner with team-specific stakeholders to mitigate risk within the team and with external associates
- Participate in production support situations, and improve knowledge of core concepts
- Use effective verbal and written communication with various business partners

Basic qualifications

- 1 year of experience in technology, software or product development, technical architecture or engineering

Preferred qualifications

- Bachelor's degree in IT, computer science, engineering or related field

What's in it for you

We're committed to helping our people thrive at work and at home. We offer generous benefits that address your total well-being and provide support as you need it, especially key moments in your life.

Our benefits include:

- Competitive pay
- Generous employee discount
- Physical and mental well-being support

About us

As part of the Best Buy team, you'll help us fulfill our purpose to enrich lives through technology. We bring that to life every day by humanizing and personalizing tech solutions for every stage of life — in our stores, online and in customers' homes.

Our culture is built on deeply supporting and valuing our amazing employees who make it all possible. We're committed to being a great place to work, where you can unlock unique career possibilities. Above all, we aim to provide a place where you can bring your full, authentic self to work now and into the future. Tomorrow works here.™

Best Buy is an equal opportunity employer.
