Logic Problems

WORK EXPERIENCE

Full Stack Web Developer (Contract)
York Solutions (Client: Best Buy)

01/2022 - Present

Achievements/Tasks

- Have been adding value to the Solution Sidekick team wherever I am most needed.
- Have played a decisive role in the development of the following features/enhancements: leads, accessory attachment, PDP, voice notes, caching, and displaying combo items in the basket.
- Have fixed and discovered numerous bugs

Contact : Ryan Mendoza - ryan.mendoza@bestbuy.com

Barriers to Entry Java Full Stack
York Solutions

11/2021 - 01/2022

Achievements/Tasks

- Learned Java (Spring Boot), Agile methodology, and improved React.js skills.
- Created a "Movie Night Recommendation" app leveraging Best Buy APIs in Spring Boot and React as well as a team project.

Contact : Silvia Hinton - shinton@yorksolutions.net

Independent Web Developer
Self-Employed

06/2020 - 11/2021

Achievements/Tasks

- Built a socket.io-based multiplayer bridge site that allows four players to play bridge online in a modern browser leveraging the power of paper.js (http://adammajor.com/examples/bridge).
- Built portfolio site using React, custom SASS, Three.js, and redux (http://adammajor.com)
- Built an angular 12 replay viewer app for the aforementioned multiplayer bridge app, allowing players to easily review games played, view game statistics, and apply various filters to find a specific game (http://adammajor.com/examples/replay).
- Built a c# application to synchronize music playlists after an Android OS update that rendered my previous playlist-syncing app unusable (http://adammajor.com/examples/playlist-syncer)

Technology Services Support Rep I.TS Field Support
Ricoh Ltd.

07/2019 - 06/2020

Japanese multinational imaging and electronics company

Achievements/Tasks

- Resolved issues related to multi-function devices; secured two contracts by going the extra mile.
- Increased productivity by 10% by automating repetitive firmware-update-related tasks.
